& Battery Acid

YEARS OF **EXPERIENCE** MAKE ALL THE DIFFERENCE

Falcon Chemicals LLC was established in the United Arab Emirates in 1976 by a prominent international business group with interests in basic and specialty chemicals. Over the years, the company has diversified into several business sectors with a marketing network spread across the Middle East, Africa, the Indian sub-Continent and the Far East.

Today, Falcon Chemicals LLC is one of the leading multi-divisional manufacturing company based in a custom-built new factory in Jebel Ali Industrial Area, Dubai. We are an ISO 9001 and ISO 14001 certified company and hold G.C.C. duty exemption certificate allowing our products import duty exempt across the G.C.C. market. Our strategic mission is to serve our customers with high quality products at an affordable price. Our years of manufacturing experience, extensive research facilities and active product development program supported by a highly skilled and experienced staff has earned us an unsurpassed reputation throughout our product range.

Construction Chemicals

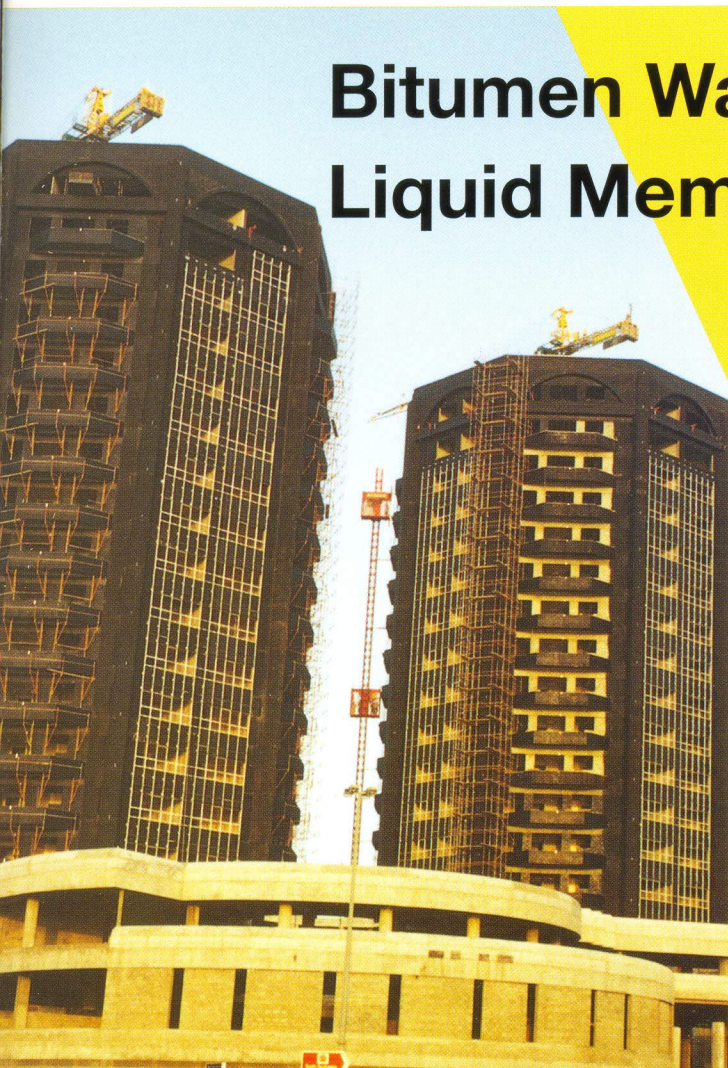

We offer a wide variety of products used in the construction industry. Our products have been used for more than 20 years in most of the prestigious projects all over the Middle East. The products for the construction industry are Tile Adhesives and Grouts, concrete repair mortars, specially formulated adhesives for marble, natural stones and polystyrene, bonding key coat, floor hardener, self leveling compound and Epoxy/Polyurethane coating etc.

Bitumen Waterproofing Liquid Membranes

Falcon chemicals offers eco-friendly waterproofing liquid membranes. These products have been successfully performing under the harsh Middle-East climatic conditions for more than two decades. Bitumen based liquid products are available for waterproofing of the sub-structure, wet areas (Kitchen, toilets and balconies) and roofs.

Detergents & Disinfectants

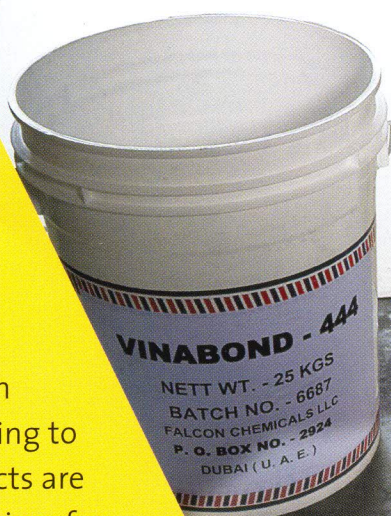

Division presents extensive range of high quality Cleaning Chemicals Products catering to "Industrial, Institutional and Fast Moving Consumer Care" markets. Our products are very widely accepted by the professional cleaning industry due to a range of products offered, excellent performance and economy. State of the Art factory facility offers products packed from 60ml to 1000Ltr packing & bulk supplies. Private labeling or contract manufacturing facilities are provided for large volume customers.

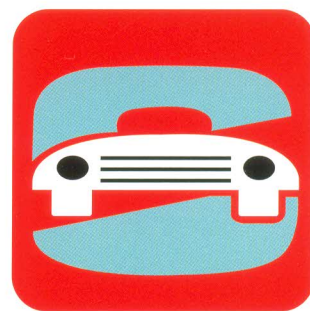

Adhesives & Polymer Emulsions

Manufacturers of paint grade polymer emulsions such as vinyl acrylic, pure acrylic, styrene acrylic, vinyl vesatate copolymers and polyvinyl acetate homopolymers etc with excellent properties. These are used in industries like manufacturing Paint, Coatings, Construction, Chemicals and Adhesives. The success is due to high technology polymerization Plant which maintains consistent quality conforming to international standards. Falcon products are used in wide range of industrial adhesives for various Applications such as carpentry, joineries. Furniture factories, paper & packaging Industry, paper converting industries, bottle labeling, printing & cigarette industry.

Autocare Products

New generation automotive radiator antifreeze and coolants are produced which meets ASTM, JIS and BS/EN standards of quality. Our products are used for after-market radiator refill. These are offered in 4 liters and 210 liters packing.

Other product of this division are car wash shampoos, rinse aids for automatic and manual car wash application. We also offer full range of car care products like tyre shine, engine degreaser etc.

Sulfuric Acid & Battery Acid

State of the Art production plant produce high purity Sulfuric Acid meeting ASTM and BS/EN standards. The product quality meets even the most demanding specification requirements of water desalination plants.

We also produce automotive batterygrade dilute Sulfuric Acid. These products are available in bulk tankers and 20 liters jerry cans.
